

My browser is Microsoft Edge:

Delete the cookies:

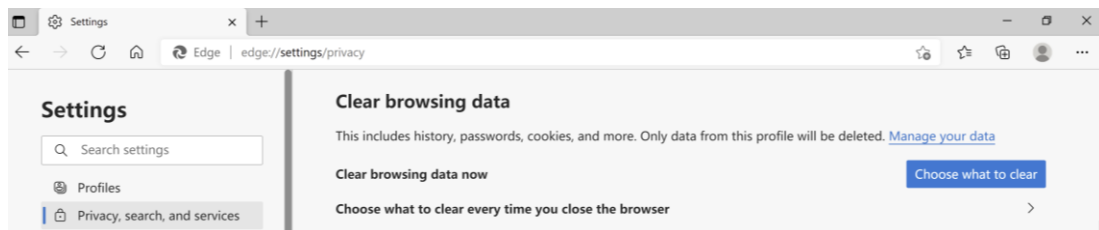

1. Select the forth horizontal dots located in the upper-right corner.

2. Select **Settings**.

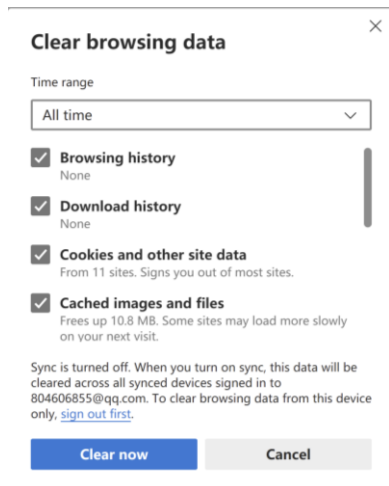

3. Select **Privacy, search and services** from the left pane.

4. Select **Choose what to clear** from the **Clear browsing data** section.

5. Select **Cookies and other site data**.

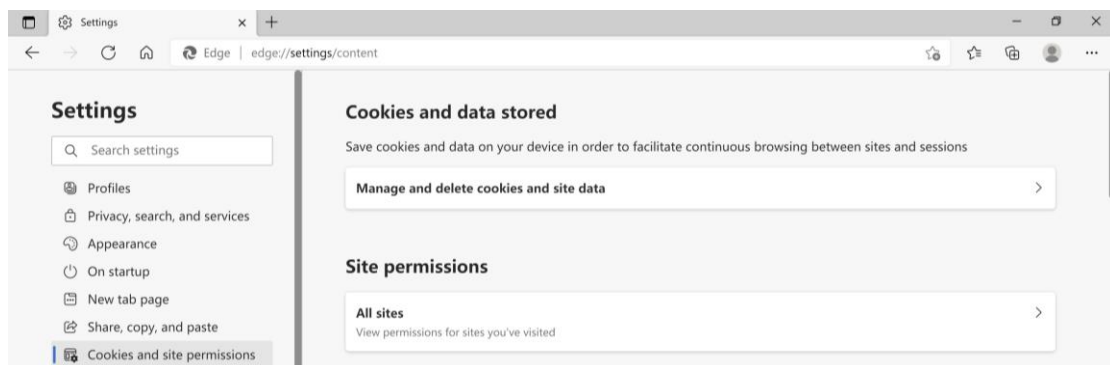

6. Select **Clear now**.

After I delete the cookies of localhost, when I visit `/hello-servlet` again, "This is a new session." is displayed, instead of "Welcome back.".

Disable the cookies:

1. Select the forth horizontal dots located in the upper-right corner.
2. Select **Settings**.
3. Select **Cookies and site permissions** from the left pane.
4. Select **Manage and delete cookies and site data** from the **Cookies and data stored** section.

5. Turn on the **Block third-party cookies** option.
